

# Coronavirus Disease (COVID-19) Daily Update: 26 March 2020

## Situational analysis

Source: WHO data 25 March 2020

Region*	Confirmed cases***		Deaths***	
	New	Total	New	Total
Globally**	40 712	414 179	2 202	18 440
Western Pacific	1 186	97 766	16	3 518
European Region	25 007	220 516	1 797	11 986
South East Asia	354	2 334	7	72
Eastern Med	2 416	29 631	131	2008
Americas	11 390	60 834	248	813
Africa**	359	1 664	3	29

### Spread

As analysts around the world starts paying more attention to the number of deaths rather than the number of cases, there is enough data to start analyzing deaths by city. There are so many variables - higher density, more tests, transfers of patients to ICU facilities. In Spain, the Madrid region suffered the brunt of epidemic with 12 352 cases (just under 1/3 of the total), but it recorded 57 % of the national deaths.

South Africa is the country with the highest number of cases with no deaths being reported.

### South Africa:

According to the latest statement by the Minister of Health, 709 cases are confirmed,. Latest updates are available on [www.sacoronavirus.co.za](http://www.sacoronavirus.co.za)

SA Tourism will make updates available on [www.southafrica.net](http://www.southafrica.net) on how the lockdown measures will impact tourism.

- [CAPA revised Indian aviation losses due to COVID-19 to USD3,3-3,6 billion in Q1FY2021](#)
- GoAir is cutting salaries of all employees.
- [Boeing CEO said that he would not accept a bailout package if the US government wants an equity stake](#)
- [The Jack Ma Foundation continues on their outreach programme They have now launched an online platform for doctors and nurses around the world to exchange ideas, lessons and know-how to fight the virus. They have invited to all hospitals to join Chinese hospitals on the open 'One world, one fight' platform.](#)
- [Comscore released a report on media consumption during the time of corona blog.](#) There is data on the increase in visits to government sites, health sites, retail sites, etc. BUT they included some interesting travel data: looking at the top 20 travel sites (including airlines, aggregators, hospitality, etc) travel visits declined 7.3 % for the week 24 February to 01 March and again 4,8 % for the week 02 to 08 March. It spiked the week of March 9-15, increasing by 9,5 %. This could be because of the large number of trip cancellations and rebookings plus airlines offering inexpensive flights. Internet searches including the terms 'coronavirus', 'COVID' or COVID-19" increased by 553 778 % in Jan 2020 from 9 902 in Dec 2019 to 54,85 million in Jan 2020 (Search Planner, Desktop Only).
