Spread

- India has recorded 100 000 cases late on Monday, infections have doubled in little over 12 days, 67 % of all cases were reported in May - if this continues, it will take ~8 days to reach 150 000 cases. Recovery rates are at 38,8 %.
- There is no flattening of the curve in Indonesia - they have recorded as many deaths in the past three days as in any three days previously since the epidemic began
- [Three weeks ago, there were just 5 reported cases in South Sudan. Today the country has 347 with cases doubling every five days. The Vice President and the Defence Minister have both tested positive.](#)
- Sweden now tops the world in daily deaths per capita
- [Taiwan is now on a 12-day-streak without any cases and 37-days without any local cases](#)
- [Approximately 1 in 5 Americans have already expressed unwillingness to get the eventual COVID-19 vaccine](#)
