Spread

- [Wuhan authorities said they found no new cases of 'silent spreaders' for the first time in nearly two months](#)
- Almost 10 000 student and teachers in Israel are going into quarantine two weeks after schools reopened and three weeks after they reopened their economy.
- [94 million Americans have delayed medical care because of the pandemic](#)
- The gradual opening of schools in Senegal was scheduled today, but government postponed this after a number of teachers in Ziguinchor tested positive for Covid-19
- Denmark and Norway's decision to open their borders to each other but not to Sweden has created a country in diplomatic isolation and raised concerns in Sweden about their Covid-19 strategy that led to a death rate per capita almost ten times higher than Norway. One of the politicians interviewed said the public were dismayed about three things: the high death toll in care homes, the failure to deliver a mass testing scheme and the closed borders for Swedes.
