

# Coronavirus Disease (COVID-19) Daily Update: 31 March 2020

## Situational analysis

Source: WHO data 30 March 2020

Region*	Confirmed cases***		Deaths***	
	New	Total	New	Total
Globally**	58 411	693 224	3 215	23 106
Western Pacific	987	103 775	23	3 649
European Region	31 726	392 757	2 535	23 962
South East Asia	375	4 084	19	158
Eastern Med	3 552	46 329	145	2 813
Americas	21 289	142 081	484	2 457
Africa**	482	3 486	9	60

The WHO media conference outlined yesterday the six steps that any country can take, regardless of the size or scenario, to fight the virus:

- Expand, train and deploy your public health force
- Implement a system to find every suspected case
- Ramp up testing capacity and availability
- Identify and adapt key facilities you will use to treat and isolate patients
- Develop a clear plan to quarantine contacts
- Refocus the whole of government on suppression and containing COVID-19

### Spread

More than 75 % of reported cases are currently in eight countries: USA, Italy, Spain, China, Germany, France, Iran and the UK.  
The USA is now the epicentre of the outbreak.

### South Africa:

According to the latest statement by the Minister of Health, the total number of confirmed COVID-19 is 1 326 and three deaths. Visit: [www.sacoronavirus.co.za](http://www.sacoronavirus.co.za) for the latest updates  
SA Tourism will make updates available on [www.southafrica.net](http://www.southafrica.net) on how the lockdown measures will impact tourism.
